

August 2008

**We've given Superior a whole new meaning!
Remarkable comfort and the landmark new "light alarm"**

When our designers renovated our superior rooms, they put their hearts and minds into it and created rooms that are setting new standards for comfort and quality.

Light Alarm and Relaxy Angel Bed

The new rooms feature a new concept in awakening... A **'light alarm'** placed on the bedside table is attuned to the body's rhythm so that in the morning, you'll awaken gently and peacefully. 30 minutes before the alarm sounds, the light alarm will start to gently lighten the room as if the sun were rising.... **just for you.**

Moreover, you'll sleep as never before thanks to our astonishingly comfortable mattresses with bedding that is as beautiful as it is luxurious. We call them our Relaxy Angel Beds...because they are perfectly heavenly!

Guests in all our guest rooms can adjust the overhead lighting in their bathrooms to their liking. This is perfect for those who prefer slightly darker lighting, or for those who enjoy a long soak in the bath. A relaxing bath time leads the mind and body to a more comfortable sleep, and that in turn helps the guest feel more refreshed upon waking.

And there is much more...

High quality Bath Amenities & Eco Friendly

Originally designed high-quality amenities come in ecological dispensers. Items provided include the usual shampoo, treatment and body soap, with the addition of makeup remover and facial wash, for a total of five items. All amenities are of the highest quality, designed and manufactured in collaboration with Hahonico®, a leading name in the beauty industry.

We have been converting all of our amenities from plastic mini-bottles to dispensers. These bathing amenities are dispensed from five stylish and permanent refillable containers, thus reducing our annual waste by up to 20 tons!

Multi-function shower

Our stunning new bathrooms feature innovative multi-function shower that includes overhead, body and handheld shower heads for a relaxing, invigorating bathing experience.

For your business needs

We have new in-room safe deposit boxes which are large enough to accommodate a 15 inch laptop and even include chargers for up to 3 devices! You'll also enjoy free Internet access with cable module on the working desk.

For a more memorable stay

For a truly memorable visit, try the luxurious “**Granvia Superior rooms**” on the Club Floors, which include even more amenities as well as the use of the beautiful Granvia Lounge.
